MAR 10 2015

SECRETARY, BOARD OF
OIL, GAS & MINING

Dear Ms. Carter:

I am writing concerning the Matter of the Request for Agency Action of Fidelity Exploration & Production Company for an Order authorizing the flaring of gas in excess of the amounts allowed under Utah Admin. Code Rule R649-3-20(1.1) from the Cane Creek Unit 32-1-25-19 Well located in Section 32, Township 25 South, Range 19 East, Salt Lake Meridian, Grand County, Utah. This well is located approximately 6 miles north of Canyonlands National Park. The National Park Service (NPS) has an interest in this Matter because of potential impacts of excessive gas flaring on air quality, the quality of dark night skies viewed from Canyonlands National Park, and the efficient use of natural resources. Because of this interest, NPS would like the opportunity to participate as a party in the Board hearing scheduled to be held on March 25, 2015.

Sincerely,

Kate Cannon
Superintendent
